Basic Preparation

It's easy to overlook, but the success of any activity can depend on some basic preparation.

Preparation

- Is the person comfortable?
- Is the area free from distractions?
- Is the lighting in the room appropriate for this activity?
- If the person requires glasses, are they wearing them?
Are they clean?

Refer to the "[Presenting an Activity, Start to Finish](#)" article on our website for more details.

When possible, you should demonstrate the activity first, showing what is expected while using as few words as possible to describe it. When you are finished the activity, thank the person for participating and ask if they would like to do it again sometime.

Presenting the Activity

If the person is able to write, place a pen, marker or pencil on the table where the person will be working. If not, you do the writing.

1. Invite the person to work on a word puzzle with you. Place the first page (the four letter words) on the table in front of the person.
2. Ask them to read the instructions (or you read them out loud) and see if they start filling in the blanks. If they don't, do one yourself and say "Now you try". Explain the instructions if necessary.
3. When they have finished, encourage them to come up with more four letter words starting with "b" using the letters from "back to school".
4. If they enjoy that, ask them to find words that start with the other consonants in "back to school".
5. Repeat the activity with the five letter word list.

Presenting

- Put the four letter word list and a pen or pencil on the table
- Invite the person to help you with a word puzzle
- Follow the instructions with the four letter words
- Repeat with the five letter word list
