

These “DementiAbility Montessori Modules” are designed to support the teachings of the very successful “*DementiAbility Methods: The Montessori Way™*” workshops that emphasize person-centered care. They can help fill your calendar with engaging activities for your residents with dementia or Alzheimer’s.

There are over 35 activities in eight modules, targeting Mind (Cognitive), Spirit (Creative) and Body (Active). The material is easy to present and is designed to allow people with a wide range of abilities to be successful. Each module comes with an Implementation Guide to help you use the module effectively.

Choose the complete “DementiAbility Montessori Implementation Kit”, one of the “Sampler” kits, or individual modules to fill out your calendar. Visit keepingbusy.com for complete details.
